PROFESSIONAL SUMMARY

Computer Science Engineering student with a strong foundation in **JavaScript, React.js, Node.js, Express.js, REST APIs, MongoDB, SQL, HTML5, and CSS3**. Familiar with developing web and mobile applications, implementing JWT authentication, integrating third-party APIs, and working with AWS cloud services. AWS Certified Cloud Practitioner with a structured approach to learning, debugging, and collaborative software development.

EDUCATION

K. Ramakrishnan College of Engineering 7.31 Trichy, India
Bachelor of Engineering in Computer Science and Engineering *2023 – 2027*

Neelan Matric Higher Secondary School 79.05% Thiruvarur,India
HSC *2023*

Sairam Matric Higher Secondary School 100% Thiruvarur,India
SSLC *2020*

TECHNICAL SKILLS

Programming Languages: Java, HTML5, CSS3, SQL

Frontend & Mobile: React.js, Flutter, Responsive Web Design

Database Management: MongoDB, MongoDB Atlas, SQL

Cloud & Developer Tools: AWS Cloud Practitioner, Render, Git, GitHub, VS Code

EXPERIENCE

Cloud Data Engineering Intern – Vika Technologies 2025

- Worked on cloud data engineering workflows and real-time data pipelines, processing and validating incoming streaming data.
- Learned cloud data processing and storage management concepts with exposure to end-to-end data analytics architectures.
- Gained exposure to enterprise data integration pipelines, cloud monitoring, and performance optimization workflows.

PROJECTS

Nebula Mail – AI-Driven Email Client 2026

- Developed an AI-powered email client integrating Gmail API and Google OAuth for real-time inbox, sent-mail, compose, and thread management.
- Built an AI Copilot supporting natural-language email composition, search and filtering, context-aware email opening, reply, and forwarding workflows.
- Implemented real-time Gmail synchronization using Google Pub/Sub and Server-Sent Events (SSE), with secure token persistence and attachment handling.
  - **Tech Stacks:** React, TypeScript, Node.js, Express.js, Gmail API, Supabase

Pet CareAssistant – Health & Care Management App 2024 – 2025

- Developed a cross-platform mobile application for pet health tracking with feeding schedules, vaccination reminders, and digital medical history records.
- Built RESTful backend services using Node.js, Express.js, and MongoDB Atlas with JWT-based authentication and Render deployment.
- Integrated automated notifications and interactive scheduling views to support consistent pet wellness routines.
  - **Tech Stacks:** Flutter, Node.js, Express.js, MongoDB Atlas, JWT, Render

CERTIFICATIONS

- AWS Certified Cloud Practitioner.
- Technical Course Certification in Java Programming.
- Foundations Certification in Cloud Computing.

LANGUAGES

- English: Professional Working Proficiency.
- Tamil: Native Fluency.
